

Business Watch Participant,

Welcome to Business Watch!

The Ladner Community Police Station is excited to offer this cost-free program for you and your business. The focus of the program is to aid in the identification of any potential criminal activity you may encounter in your day to day business handlings. Each month you will be provided an email newsletter that outlines different topics that may have an effect on your business. This program is facilitated by Business Watch volunteers who work in cooperation with the Delta Police.

The following statistics are a summary of reported commercial crime offences in **January**.

Robbery	2
Break & Enter Commercial	21
Theft of Vehicle	29
Theft From Vehicle	79

NEW: Polymer Series Bank Notes

The new \$100, \$50, \$20, \$10 and \$5 polymer notes are now in full circulation in Canada. These unique bills are an excellent step in the fight against counterfeit currency, and are

easy to examine without any tools. In August 2013, there were reports of imitation \$50 US and \$100 CDN bills in circulation in Tsawwassen.

Feel. Look. Flip.

The new \$100, \$50, \$20, \$10 and \$5 polymer notes are easy to check and hard to counterfeit. They have the same innovative security features that can be seen in transparent areas on both sides of the notes.

Feel

• Raised ink / Encre en relief

1. Raised ink

Feel the raised ink on the large number, the shoulders of the large portrait and the words “Bank of Canada” and “Banque du Canada.”

Look

• Large window / Bande transparente

2. Large window

Look for transparency through the large window containing a metallic portrait and building.

Flip

Flip the note to see the features in the large window repeated in the same colours and detail on the other side.
