

LET'S LIGHT UP LADNER VILLAGE

Good morning LBA members,

The **Ladner Business Association (LBA)**, with the support of the Corporation of Delta, is looking to light up Ladner Village!

Imagine our Historic Ladner Village ablaze with lights all winter long. These lights, combined with the recent beautification of Delta Street, will transform Ladner Village into a year long destination for everyone to shop, eat or enjoy a stroll among our heritage buildings.

The goal is to raise \$30,000 for the lighting of the trees on 48th Avenue, Delta Street and Haviland Street from dusk to 11pm for a minimum of five months of the year. This cost would also include the three year maintenance, storage and cleaning of these lights. Additionally, historic placards would be installed in Spring of 2017 to highlight some of the extensive history of our village. These placards will coincide with the walking map and potential app that we are currently developing.

We are looking for donations from our members and the community to invest in the future of our village. There are opportunities to sponsor trees or to buy a string of lights. Every penny counts!

There are two ways to donate - send a cheque with Light Up Ladner Village in the memo line to the LBA mailing address or you can donate online at www.gofundme.com/LadnerVillage.

If you have any questions or would like more information please contact Andrea at president@ladnerbusiness.com.
